

**Layout Grid Sheet for Cabinets (1 square = 6 inches)**

**General Cabinet Information:**

- 1) Base cabinets are 34 ½" tall and 24" deep. **B30** = 30"Wide X 24"Deep X 34 ½"Height.
- 2) Wall Cabinets are 30", 36", and 42" in Height. **W2436** = 24"Wide X 12"Deep X 36"Height. The height for your cabinets can be determined using the following example: **96"(ceiling height 8') -36" (finished top of base cabinets) -20"\*\*\* (space between counter top and bottom of upper cabinets) – 4" (crown molding)= 36" Cabinet height.** Most wall cabinets are between 18" and 22" above the counter top to the bottom of the wall cabinets. Some prefer to have a 1'+ or - space between the cabinets and the ceiling for knic-knacs, etc. especially where there are 9'+ ceiling heights.
- 3) In a kitchen or bath, there may be a need for fill pieces(Base Fill - BF3, BF6 or Wall Fill – WF336, WF636, WF342, WF642)which should be used at the ends if possible.
- 4) If you have other questions please send an e-mail or contact us at (951) 837-9101.

**\*\*The distance between the top of the counter and the bottom of the wall cabinets can vary depending on personal preference.**
